## EDUCATION

**Noida Institute of Engineering and Technology, Greater Noida**          *2022 - Present*
Bachelor of Technology, Department of Information Technology

**Avadh Collegiate, Lucknow**          *2022*
Intermediate

## CAREER OBJECTIVE

Aspiring IT professional with a strong foundation in programming, data structures, and emerging technologies. Eager to bring fresh ideas, strong coding skills, and a collaborative spirit to a dynamic, innovation-focused team.

## PROJECTS

**Weather Forecasting**
Built a responsive web app using JavaScript and OpenWeatherMap API to display real-time weather data including temperature, humidity, and a forecast.

**Travel Management**
Developed a web-based application to manage bookings, destinations, and user itineraries using PHP, MySQL, and HTML/CSS. Included admin and user modules for streamlined travel planning.

## TECHNICAL STRENGTHS

| | |
|---|---|
| **Web Development:** | HTML, CSS, JavaScript, React, Tailwind CSS |
| **Machine Learning & Tools:** | Scikit-learn, TensorFlow, Traditional ML Techniques |
| **Programming Languages:** | C++, Java, JavaScript |
| **Tools & Databases:** | Git, GitHub, SQL, MongoDB |

## ACADEMIC ACHIEVEMENTS

Winner  CodeBurst Inter-College Coding Competition: Secured 2nd place among 150+ participants by solving complex algorithmic challenges under time constraints, demonstrating problem-solving, speed, and coding efficiency in C++.

Achieved 3rd place among 200+ participants by solving advanced data structure and algorithm problems using C++; recognized for clean code, logic optimization, and speed.

## EXPERIENCE

**Weather Forecasting**
Built a responsive web app using JavaScript and OpenWeatherMap API to display real-time weather data including temperature, humidity, and a forecast.

**Travel Management**
Developed a web-based application to manage bookings, destinations, and user itineraries using PHP, MySQL, and HTML/CSS. Included admin and user modules for streamlined travel planning.
